1 INTRODUCTION AND OVERVIEW

The City of San José is transforming itself into a “smart city” and becoming a global leader for civic innovation. Becoming a “smart city” means that game-changing technologies and data-driven decision-making will drive continuous improvement in how the City serves the community, and to promote concrete benefits in safety, sustainability, economic opportunity, and quality of life. Key goals of the City of San José’s Smart City Vision include:

- Inclusive City
- User Friendly City
- Safe City
- Sustainable City
- Demonstration City

The City of San Jose, City Manager’s Office of Civic Innovation and Digital Strategy (“Innovation team”), is co-hosting with Startup in Residence (STIR) which is a program that connects government partners with innovative technology startups to develop technology-based solutions that address challenges experienced by government and residents. The purpose of the Startup in Residence Program (“STIR” or “Program”) is to introduce government agencies to new innovation and technologies. These products will enhance government productivity, efficiencies and help improve the community member experience. As part of a competitive application process, each government agency will select startups to participate in the STIR Program who will get to work with the government agency on innovative solutions to actual address government needs.

The City is soliciting proposals from start-ups for technology-based solutions to address several specific “City of San Jose Challenge statements” facing several City departments (operational efficiencies) or Citywide needs (community benefit). (See Attachment B for a description of the Civic Challenge Areas.) “Technology based solutions” means on-premise or cloud-based software (licenses to software object code), mobile applications, hosted software or applications, information technology hardware, and/or any combination thereof.

This Request for Proposals is being sent out by the City of San Jose (“City”) for participants in the Startup in Residence (“STIR”) program for a potential contract in an amount not to exceed \$40,000. The term of the agreement will be a minimum of a year for the development and testing phase and shall include a license for the City to use the solution for a specified period. The licensing period may be extended for an addition option period.

The goal of the partnership with the selected tech company is to develop a service or product for the City of San Jose. During the term of the agreement, the major milestones that will incur during the first year are the following:

- Kickoff Event in March 2020
- 16 Week Program (“Residency” Period) March to July 2020
- City of San Jose Demo Day (Fall 2020)
- Smart Cities and Service Improvements Committee (Fall 2020)
- Optional STIR Demo Day (Fall 2020)

Project Description:

Startups and departments will agree to work together to conduct research, early product development, prototyping, and user testing. This also includes:

1. Discussing technical requirements on an ongoing basis.
2. Working together to conduct primary user feedback.
3. Deployment of pilot software for the products beta.

During the scoping period, Departments and startups will establish a project charter define their respective roles & responsibilities, objectives, metrics for user feedback, and deliverables.

The participating department within City of San Jose will determine the nature of the collaboration with the startup they select including, but not limited to, the number of meetings, expectations, appropriate deliverables and minimum viable product. These expectations will be discussed between City department team and startup and documented at the start of the 16-week program (“Residency”) with assistance from the STIR program manager.

Technical Requirements

Startups and departments will work together to identify and prioritize functionality that will enable City staff or local residents to gain access to the City Department and tech company co-created products. Technology-based solutions must be in compliance with the ITD technical architecture and environment.

User Feedback

The goal of obtaining user feedback is to gain a clear understanding of the user experience, outcomes from the proposed process objectives, and workflows of the product. User feedback of both City staff and community members and testing is a cyclical process that will guide iterative development throughout the 16-week engagement.

2 BACKGROUND

- 2.1 Governments are looking to identify more fluid pathways to work with smaller technology companies. This has typically left government with two options: (1) use technology intended for Fortune 500 companies and large enterprises, or (2) develop a collection of customized solutions that require significant investment of time and resources. The STIR Program aims to bridge this gap by connecting government agencies directly with technology entrepreneurs to seed product development in government. With thousands of policy challenges, government has the potential to support a large ecosystem of best-of-breed technology solutions helping catalyze public sector innovation and productivity.
- 2.2 The City of San Jose will designate a selection committee responsible for reviewing and evaluating each submission. The selection committee will independently and confidentially review the online applications created and managed by STIR based on

pre-defined evaluation criteria established by the City of San Jose. The evaluation process may involve multiple stages, including interviews. Decisions will be communicated to all applicants by March 2020. The highest scoring responsive proposals for each of the Challenge Areas will be selected to participate in the Residency period to work with the relevant City department to develop their proposed technology-based solution.

- 2.2.1 During the Residency period, the selected tech company will participate in the STIR Program on a volunteer, unpaid basis. This project period will include scope of work, a narrative description of the activities and deliverables to be accomplished during the 16 week period which will commence at the end of March 2020 to July 2020. During this project period, the participating startup will conduct user design and research to understand the challenge, design a solution, build or customize the solution, and test the solution in collaboration with City department teams and ultimately creating a minimum viable product. The use of City department staff time and resources is at the sole discretion of the participating City department in accordance with City department policies and the laws of the City.
- 2.3 At the end of the Residency period, the City Department and tech company will present their findings and demo the minimum viable product at various events such as the Smart Cities and Service Improvements Committee, City of San Jose Demo Day and potentially at STIR Demo Day in Fall 2020.
- 2.4 The contracting decision will depend on how well an applicant's minimum viable product solution performs in addressing the City of San Jose challenges. Contracting decisions will be made in Summer 2020. Upon the conclusion of the Residency period and the creation of a minimum viable product as defined by both parties, the City will have the option to license any technology-based solution developed during the Residency period as follows:
 - 2.4.1 On-Premise Software: In those cases where the participant develops custom software deployed on-premise, the City will have the option to license the software in perpetuity free of charge. If the option is exercised, the participant(s) will maintain the software and provide the City with free maintenance for twelve (12) months, during which time the City and participant(s) will negotiate an annual maintenance fee for future years.
 - 2.4.2 Hosted Software or SaaS Applications: In those cases where the software developed is hosted by a participant (i.e., "hosted software") and/or operated via software-as-a-service model, the City will have the option of a term license or subscription with the first twelve (12) months of access provided free of charge. If the option to extend the agreement is exercised, the City and Contractor will renegotiate an annual subscription fee for up to the maximum option period.
 - 2.4.3 Hardware: In those cases where the participant develops a hardware product, the City will have the option to lease or license the product for free for twelve (12) months (including free maintenance). If the option is exercised, the City may elect to purchase or continue leasing the product following the initial year of free use, and in such a scenario will negotiate a compensation charge and maintenance with the participant(s).

- 2.5 Selected tech companies (“Contractor”) will be required to sign an agreement (see sample provided in Form 3) prior to commencing work with the assigned City department. The perpetual license, hosting, and/or purchase option agreement(s) will be entered into following the residence period if a successful technology-based solution has been developed by participant(s).
- 2.6 In those cases where the Contractor develops a hosted software solution, special legal requirements would apply to the license, hosting, and/or purchase option agreement. Technology-based solutions must be in compliance with the City’s ITD technical architecture and environment (See Attachment E for Infrastructure General and Cybersecurity Requirements) . City’s data, and the Contractor’s data center storing such data, must be located and remain within the United States. The Contractor shall ensure that all physical or electronic transmission or exchange of data with the City and/or any other parties expressly designated by the City shall take place via secure means (for electronic transmissions using HTTPS or SFTP or the most recent version used in the industry). The Contractor shall also ensure that all data exchanged shall be used expressly and solely for the purposes enumerated in the City contract. Data shall not be distributed, repurposed or shared across other applications, environments, or business units of the Contractor. The Contractor shall ensure that no City data of any kind shall be transmitted, exchanged or otherwise passed to other vendors or interested parties. (See Attachment E for Infrastructure General and Cybersecurity Requirements)

The City shall not be obligated to respond to any proposal submitted nor be legally bound in any manner by submission of the proposal.

15.2 The City is not required to accept the lowest priced proposal. Responses will be evaluated to determine the most advantageous proposal on a variety of factors including, but not limited to, price, design, quality, features, and performance.

15.3 The City reserves the right to accept or reject any item(s) or groups of items in a response, and may elect to award by line item(s) if it is found to be in the City's best interest to do so.

15.4 The City also reserves the right, in its sole discretion, to make multiple awards. In the event the City elects to make multiple awards, awards will be made in the order of proposal final rankings.

15.5 In the event any proposer to be awarded under this RFP cannot meet the City's budget requirements, the City reserves the right to award to the next highest ranked proposer.

15.6 Vendors should not include sales tax in their price quotations. The City will work with the selected vendor to add sales tax as appropriate and will incorporate it into the final agreement.

15.7 The City of San José is exempt from federal excise tax, including federal transportation tax. The City will provide an exemption certificate as appropriate.

15.8 Statistical information contained in this RFP is for informational purposes only. The City shall not be responsible for the complete accuracy of said data.

15.9 Any estimated quantities provided are for quoting purposes only and are not to be interpreted as a guarantee to purchase any amount. Any variations from the estimated quantities does not entitle the vendor an adjustment in unit pricing or rates.

- 15.10 The City reserves the right to verify any information provided during the RFP process and may contact references listed or any other persons known to have contracted with the Proposer.
 - 15.11 The City may require financial statements as certified by an independent Certified Public Accountant. Do not submit these documents unless they are requested.
 - 15.12 The laws of the State of California shall govern this RFP process and any resulting agreements, including any required vendor agreements for subscriptions, licensing, maintenance, hosting, etc.
 - 15.13 All goods and services provided to the City by the successful vendor shall comply with all City policies, rules, and regulations which may be in effect during the term of the agreement, as well as all federal, state, and local statutes, ordinances, and regulations. The successful vendor is also required to comply with all applicable equal opportunity laws and regulations.
 - 15.14 The City shall not be liable for any pre-contractual expenses incurred by prospective vendors or selected contractors, including, but not limited to, costs incurred in the preparation or submission of proposals. The City shall be held harmless and free from any liability, claims, or expenses whatsoever incurred by, or on behalf of, any person or organization responding to this RFP.
 - 15.15 Failure to carefully read and understand this RFP may cause the proposal to be out of compliance or rejected by the City or may legally obligate the proposer to more than it intends or realizes.
 - 15.16 Information obtained by the proposer from any officer, agent, or employee of the City shall not affect the risks or obligations assumed by the proposer or relieve the proposer from fulfilling any of the RFP conditions or any subsequent contract conditions.
 - 15.17 Only the format described in this RFP and the attachments included with this RFP will be accepted as compliant for the submitted proposal. Failure to fully complete and submit all required attachments may result in disqualification.

- 16.1 For the term specified in this RFP (including option terms), the City reserves the right to make purchases from the awarded vendor(s) for the specified items, or their next generation equivalent, including warranty, support, and maintenance.
- 17 LOCAL AND SMALL BUSINESS ENTERPRISE PREFERENCE (LBE/SBE) (if applicable)**
- 17.1 Chapter 4.12 of the San José Municipal Code provides a preference for Local and Small Businesses in the procurement of goods and services that are not specifically precluded from these preferences.
 - 17.2 If the basis of an award is price determinative (awarded to the low bidder), the amount for the preference shall be 2.5% of cost for local and an additional 2.5% of cost for small.
 - 17.3 If the basis of an award is evaluative (awarded to the best value respondent), the amount of preference shall be 5% of total points for local and an additional 5% of total points for small.

17.4 To be considered for Local and Small Business Enterprise Preference, you must complete the Request for Local and Small Business Enterprise Preference Form and submit it with your solicitation response. Vendors who fail to complete and submit the Request for Local and Small Business Enterprise Preference Form with their solicitation response will not be considered for the preference. This information cannot be submitted after the RFP submittal deadline.

17.5 To receive the LBE preference, you must have both of the following:

17.5.1 *A valid San José Business Tax Certificate Number:* The business tax certificate number below should match to the address and business name for which the preference is being claimed and must be current as of the proposal due date. Proposers should verify their information through the City's Business Tax Lookup at <http://www.sanjoseca.gov/index.aspx?nid=5313> prior to submittal.

17.5.2 A legitimate business presence in Santa Clara County with at least one full time employee: The City has interpreted a legitimate business presence to require:

- the local address for which the preference is being requested is of a commercial nature and the primary purpose of the location is to serve as a principal, regional, branch, or satellite business office; or
- in the case of a business located in a residential dwelling, the business must either be a valid home occupation as an incidental use of the business owner's primary dwelling, or the residential dwelling is exclusively used for a commercial nature and the primary purpose of the location is to serve as a principal, regional, branch or satellite business office.

The City reserves to right to request additional documentation and supporting information to confirm that the preference should be applied, including, but not limited to, lease agreements, proof of payments, employee information, signage, website, and location

17.6 You must first qualify as an LBE to qualify for the SBE Preference. If you receive the LBE preference and the total number of employees for your firm (regardless of where they are located) is 35 or fewer, you also qualify to receive the SBE preference.

17.7 The preference shall only be considered for the prime proposer(s). However, in the event that the responding firm is a Joint Venture (JV) or Partnership as indicated on the Certification Form (Form A), the local preference shall apply if any one of the firms in the JV or Partnership meets the definition for a Local Business Enterprise. In order for a JV or Partnership to be considered for the Small Business Enterprise Preference, the aggregate of all of the employees that make up the JV or partnership must meet the definition for a small business.

17.8 Refer to the Request for Local and Small Business Enterprise Preference for additional details.

Government Code section 6250 et seq.) All documents that you send to the City will be subject to disclosure if requested by a member of the public. There are a very limited number of narrow exceptions to this disclosure requirement.
- 18.3 Any proposal which contains language purporting to render all or significant portions of their proposal “Confidential,” “Trade Secret” or “Proprietary,” or fails to provide the exemption information required as described below will be considered a public record in its entirety subject to the procedures described below.
- 18.4 The City will not disclose any part of any proposal before it announces a Recommendation of Award on the grounds that there is a substantial public interest in not disclosing proposals during the evaluation process. After the announcement of a Recommendation of Award, all proposals received in response to this RFP will be subject to public disclosure. If you believe that there are portions of your proposal which are exempt from disclosure under the Public Records Act, you must mark them as such and state the specific provision in the Public Records Act which provides the exemption as well as the factual basis for claiming the exemption. For example, if you submit trade secret information, you must plainly mark the information as “Trade Secret” and refer to the appropriate section of the Public Records Act which provides the exemption as well as the factual basis for claiming the exemption.
- 18.5 Although the California Public Records Act recognizes that certain confidential trade secret information may be protected from disclosure, the City of San José may not be in a position to establish that the information that a Proposer submits is a trade secret. If a request is made for information marked “Confidential,” “Trade Secret,” or “Proprietary,” the City will provide the Proposer who submitted the information with reasonable notice to seek protection from disclosure by a court of competent jurisdiction.

The successful proposer must work directly with the Participating Entities concerning the placement of orders, disputes, invoicing and payment. The City of San José shall not be held liable for any costs or damages incurred by or as a result of the actions of the successful proposer or any Participating Entity. Successful proposers must comply with the state and local laws, rules and regulations in each state and locality where the product or service is provided.

While the terms of the Master Agreement shall govern the general pricing terms, each Participating Entity may request modification of the Master Agreement in accordance with each Participating Entity's state and/or local purchasing laws, rules, regulations and procedures, provided said modifications are not material changes. Each Participating Entity may, at its discretion, and upon written agreement by the Participating Entity and successful proposer, request additional legal and procedural provisions not included herein that the successful proposer must adhere to if it wishes to conduct business with said Participating Entity using the

Master Agreement. Notwithstanding the foregoing, any successful proposer or participating vendor may, at its discretion, reject orders placed by a Participating Entity if the vendor determines that it may be unable to satisfy such order.

CONTRACT USAGE

It is the intent of this Request for Proposal and resulting Master Agreement that Participating Entities may buy directly from successful proposers without the need for further solicitation. ATTACHMENT B - SCOPE OF SERVICES AND REQUIREMENTS

1. Challenge Statement

The City of San José Office of Emergency Management is seeking an accurate, reportable solution to increase translated communications to residents during emergencies by 2021.

2. Background

The 2017 Coyote Creek Flood caused an estimated \$100M in damage and forced the emergency evacuation of 14,000 people, most of them residents of neighborhoods in and around downtown San José (Mercury News, 2019). During these types of events, emergency services (Fire fighters, Police, and volunteers) go door-to-door to inform residents of evacuation orders. At the same time, emergency management staff use social media channels (Facebook, Twitter, and Nextdoor) and SMS (via Santa Clara County's Everbridge system) to notify residents. Disproportionately impacted by these methods of communication are non-English speaking residents (predominately Vietnamese and Spanish), low-income, and elderly individuals, for whom these emergency notifications are not efficiently conveyed.

Additionally, resident action (or in-action) is not fully captured by reporting methods. The Communications department reports digital performance metrics (impressions, clicks, etc) from social channels and outreach numbers from SMS channels, but metrics are not available from door-to-door efforts. For instance, in the Sonoma County fires, 100,000 people were notified to evacuate, leading to only 200 people showing up to the shelter; yet, this does not necessarily represent the total number of individuals taking action, as they may go elsewhere (family-and-friends, hotels, etc).

The above results in:

- Decreased clarity of evacuation instructions
- Inconsistent notifications
- Frustrated residents
- Increased time to action
- Lack of visibility into resident action

3. Challenge Goals

- Increase access to emergency communications
- Increase effectiveness of emergency communications

4. Product / Service Requirements & Specifications

The Office of Emergency Management seeks a solution that would have the following characteristics:

- Real-time transcription and translation tools for use in the field and in the office
- Speech-to-text and text-to-text transcription and translation for English, Vietnamese, and Spanish via mobile and desktop
- Integration with social media and SMS communication channels
- Reporting and analytics tools

Exemplar Agreement for Critical Information Translation System

- High transcription and translation accuracy
- Language auto-detection
- Help adapt to future City departments that have applicability
- Compliance with the City of San José Privacy Principles
- Training and Documentation
- Maintenance & Support (SLAs, response times, hours, etc.)

5. Warranty Requirements

Applicable hardware and software in the Proposed Solution will be in accordance with the warranty requirements in Section 11.

Vendor shall promptly deliver to City, and in any event within ten (10) calendar days after receipt of such notice, a statement showing the effect of any such changes in the cost of or time for performance. - 11. TERMINATION FOR DEFAULT OR CONVENIENCE:** City may, by written notice to Vendor, terminate this purchase order in whole or from time to time in part for default: (i) if Vendor fails to deliver the goods or to perform the services strictly within the time specified herein, or if no time is specified, within a reasonable time; (ii) if the

City may, by not less than thirty (30) days written notice to Vendor, terminate this purchase order for convenience and without cause. In the event of such termination for convenience, Vendor will be paid for those goods delivered and services performed pursuant to this purchase order to the satisfaction of City up to the date of termination. WAIVER: Vendor agrees that City's waiver of any breach or violation of any provision of this purchase order shall not be deemed to be a waiver of any other provision or a waiver of any subsequent breach or violation of the same or any other provision. City's acceptance of the performance of any of Vendor's performance will not be a waiver of any provision of this purchase order.

19. INDEPENDENT CONTRACTOR: It is understood and agreed that Vendor shall act as and be an independent contractor and not an employee, agent, joint venture, or partner of City. As an independent contractor, Vendor shall obtain no rights to retirement benefits or other benefits which accrue to City's employees, and Vendor hereby expressly waives any claim it may have to any such rights. Both parties acknowledge that Vendor is not an employee for state or federal tax purposes. Vendor shall retain the right to perform services for others during the term of this purchase order.

20. CONFIDENTIAL INFORMATION: All data, documents, discussions or other information developed or received by or for Vendor in performance of this purchase order are confidential and not to be disclosed to any person except as authorized by City, or as required by law.

21. OWNERSHIP OF MATERIALS: All reports, documents or other materials developed or discovered by Vendor or any other person engaged directly or indirectly by Vendor in performance of this purchase order shall be and remain the property of City without restriction or limitation upon their use.

Vendor shall maintain all documents and records which demonstrate performance under this purchase order for a minimum of three (3) years, or for any period longer required by law, from the date of termination or completion of this purchase order. Any records or documents required to be maintained pursuant to this purchase order shall be made available for inspection or audit, at any time during regular business hours, upon written request by City Attorney, City Auditor, City Manager, or a designated representative of any of these officers. Copies of such documents shall be provided to City for inspection at City Hall when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the records shall be available at Vendor's business. City may, by written request by any of the above-named officers, require that custody of the records be given to City and that the records and documents be maintained in City Hall. Access to such records and documents shall be granted to any party authorized by Vendor, Vendor's representatives, or Vendor's successor-in-interest.

23. NON-DISCRIMINATION:

a. Prohibition on Discrimination and Preferential Treatment.

If directed by the Director of Office of Equality Assurance of the City, Vendor shall file, and cause any subcontractor to file, compliance reports with the Director of Office of Equality Assurance. Compliance reports shall be in the form and field at such times as may be designated by the Director of Office Equality Assurance. Failure to comply with these provisions is a violation of Chapter 4.08 of the San José Municipal Code and is a misdemeanor.

d. Subcontracts.

Vendor shall include provisions a through c above, inclusive, in each subcontract entered into in furtherance of this Agreement so that such provisions are binding upon each of its subcontractors.

e. Waiver of Nondiscrimination Provisions.

The nondiscrimination provisions of this Agreement may be waived by the Director of Office of Equality Assurance, if the Director of Office of Equality Assurance determines that the Vendor has its own nondiscrimination requirements or is bound in the performance of this Agreement by the nondiscrimination requirements of another governmental agency, and the nondiscrimination provisions of the Vendor or other governmental agency are substantially the same as those imposed by the City.

24. GIFTS: Vendor represents that it is familiar with the City's prohibition against the acceptance for any gift by a City officer or designated employee, which prohibition is found in Chapter 12.08 of the San José Municipal Code. Vendor agrees not to offer any City officer or designated employee any gift prohibited by said Chapter. The offer or giving of any gift prohibited by Chapter 12.08 shall constitute a material breach of this purchase order by vendor. In addition to any other remedies City may have in law or equity, City may terminate this purchase order for such breach.

25. CONFLICT OF INTEREST: Vendor shall avoid all conflict of interest or appearance of conflict of interest in performance of this purchase order.

Nothing in this Section 3 shall derogate from the obligations of Contractor to provide the guarantees and warranties described in, and to comply with the provisions of this Agreement.

3.6 Privacy and Disclosure (optional for web application hosting, delete if not applicable)

Contractor agrees in the performance of services to comply with City's Privacy and Disclosure Policy set forth in EXHIBIT H entitled "Privacy and Disclosure Policy", which is attached hereto and incorporated herein. Contractor shall ensure that all webpages that it creates are consistent with the Policy. Contractor further agrees that it shall treat all information received through the performance of this Agreement in strict accordance with the Policy.

4 EXTENSION OF CONTRACT TERMS TO PARTICIPATING ENTITIES

Contractor agrees to extend the same terms, covenants, and conditions available to City under this Agreement to other government agencies ("Participating Entities"). Notwithstanding the foregoing sentence, any Contractor, at its discretion, may reject orders placed by a Participating Entity if the Contractor determines that it may be unable to satisfy such order. Each Participating Entity will be exclusively responsible for and deal directly with Contractor on matters relating to ordering, delivery, inspection, acceptance, invoicing, and payment for Products and Services in accordance with the terms and conditions of this Agreement as if it were "City" hereunder. Any disputes between a Participating Entity and Contractor will be resolved directly between them under and in accordance with the laws of the State in which the Participating Entity exists. The City shall not incur any liability as a result of the access and utilization of this Agreement by other Participating Entities.

This solicitation meets the public contracting requirements of the City and may not be appropriate under or meet Participating Entities' procurement laws. Participating Entities are urged to seek independent review by their legal counsel to ensure compliance with all local and state solicitation requirements.

5 SCHEDULE OF PERFORMANCE

Contractor shall perform the Services according to the terms and provisions of the Performance Schedule (EXHIBIT A-3). Time is expressly made of the essence with respect to each and every term and provision of this Agreement.

6 DATA AND FACILITIES

Contractor acknowledges that it has in its possession all applicable specifications and drawings, and all other documents to which reference is made herein and/or which are matched hereto, and all such data are adequate to enable Contractor to fairly determine its ability to perform the work called for herein at the price and in accordance with the schedule set forth herein. Contractor represents that it now has or can readily procure without assistance of City all facilities, machinery and equipment necessary for the performance of this Agreement.

7 STANDARDS OF SERVICE

In connection with the performance of any Services pursuant to this Agreement:

7.1 Number of Employees

Contractor warrants it will provide sufficient employees to complete the Services ordered within the applicable time frames established pursuant to this Agreement. Furthermore, Contractor shall, at its expense, supply all tools, equipment and other materials necessary to perform the Services contemplated in this Agreement.

7.2 Skill of Employees

Contractor warrants that employees shall have sufficient skill, knowledge, and training to perform Services and that the Services shall be performed in a professional and workmanlike manner.

7.3 Duty of Confidentiality

All data, documents, discussions or other information developed or received by or for one Party in performance of this Agreement are confidential and must not be disclosed to any person except as authorized by the other Party, or as required by law. The receiving Party warrants that all employees utilized by it in performing Services are under a written obligation to the receiving Party requiring the employee to maintain the confidentiality of information of the other Party to the extent permitted by law.

7.4 Security and Safety

Contractor shall require employees providing Services at a City location to comply with applicable City security and safety regulations and policies. 7.5 Contractor's obligations to employees

Contractor shall provide for and pay the compensation of its employees and shall pay all taxes, contributions, and benefits (such as, but not limited to, workers' compensation benefits) which an employer is required to pay relating to the employment of employees. Contractor shall indemnify, defend and hold City harmless from and against all such taxes, contributions and benefits and will comply with all associated governmental regulations, including the filing of all necessary reports and returns.

7.6 Replacement of Employees

During the course of performance of Services, City may request replacement of an employee or a proposed employee, provided that there is reasonable cause. In such event, Contractor shall, within five (5) working days of receipt of such request from City, provide a substitute employee of sufficient skill, knowledge, and training to perform the applicable Services. If, within the first thirty (30) days after an employee's commencement of Services, City notifies Contractor (1) such employee's level of performance is unacceptable, (2) such employee has failed to perform as required, or (3) such employee, in City's sole opinion, lacks the skill, knowledge or training to perform at the required level, then Contractor will be required to review the work performed by said employee, confirm the quality of work, and correct any items the Contractor deems incorrect. If City requests replacement of an employee for the above-referenced reasons after such thirty (30) day time period, or at any time for a reason other than the reasons indicated above. City shall not be required to pay for, and shall be entitled to a refund of, any sums paid to Contractor for such employee's Services after the date of City's requested replacement of such employee.

8 CHANGE ORDER PROCEDURE AND AUTHORIZATION

8.1 Changes

Any changes to this Agreement that relate to (i) the deletion of Products or Services, (ii) adding additional Products or Services, (iii) changing or modifying Products or Services, or (iv) making other changes that materially alter the scope of this Agreement or the Deliverables required under this Agreement, including approval of all performance and/or payment schedules shall be made by the Director of Finance in accordance with the procedures set forth below.

8.2 Contract Change Requests

Either Party hereto may, from time to time, and at any time during the term hereof request a change, as defined in the above section. The Party requesting the change is hereinafter referred to as the "Requesting Party." Requests for changes shall be in writing and shall be addressed and delivered to the other Party as provided herein. Such writing shall be identified as a "Contract Change Request," shall carry a sequential number for ease of tracking, shall set forth in detail the nature of the change requested and the costs associated therewith, and shall identify the Products, Services, Deliverables or Schedules to be changed.

8.3 Procedures

As soon as practical after receipt by the notified Party of copies of the Request, the Parties shall as necessary meet to discuss the change and to ascertain its cost and schedule impacts, if any.

8.4 Change Orders

If the Parties decide to implement a change request, a standard form Change Order ("CO") shall be prepared in a form substantially similar to the form attached hereto as EXHIBIT D, which CO shall describe the change, delineate the cost, schedule, and other impacts of the change and the payment terms for any price increase. Only City's Director of Finance and Contractor's Authorized Representative shall have authority to execute CO's to this Agreement. Execution of a CO by City's Director of Finance and Contractor's Authorized Representative shall constitute a modification hereof and shall be binding on both Parties hereto.

9 COMPENSATION

9.1 Contract Price

The total contract price in U.S. dollars shall not exceed \$40,000 during the Initial Term (“Maximum Compensation”). The terms, rate and schedule of payment are set forth in the attached EXHIBIT B, entitled “Compensation and Payment Schedule .” Contractor shall submit to City invoices on a yearly basis that include a breakdown of Services as provided in attached EXHIBIT B, entitled “Compensation and Payment Schedule.” City will make payments to Contractor within thirty (30) days after the date of approval of each invoice. All freight charges will be pre-paid by Contractor and added to the invoices. Title in the Equipment shall remain with the Contractor until such goods have been paid in full. However, such goods shall be entirely at Contractor’s risk from the time they are placed in the possession of the carrier for shipment to City and received by the City. Contractor shall ensure that the goods are insured against “all risks” from the time the goods are placed in the possession of the carrier for shipment to City. Contractor will pack and ship all Equipment in accordance with good commercial practices.

9.3 Non-Funding: Each payment obligation of City is conditioned upon the availability of state or local government funds which are apportioned or allocated for the payment of such an obligation. If the funds are not allocated and available for the continuance of the function performed by Contractor, the product or service directly or indirectly involved in the performance of that function may be terminated by City at the end of the period for which funds are available. City shall notify Contractor at the earliest possible time of any products or services which will or may be affected by a shortage of funds. If the shortage of funds relates to ongoing payments such as subscription services or support, Contractor reserves the right to terminate the Agreement with 30 days’ notice as payment of subscription services and support is a requirement of being able to use the system.

9.4 No penalty shall accrue for City in the event this provision is exercised, and City shall not be liable for any future payments due or for any damages as a result of termination under this Section. Contractor agrees to render any assistance which City may seek in affecting a transfer of any right of City in this Agreement, or any part hereof, that is required of City pursuant to the securing of financing hereunder. Despite the foregoing, the City shall pay Contractor for any Services performed in accordance with this Agreement up to the date of termination.

If, in the discretion of City, the System does not meet the requirements of the Acceptance Test specifications, City may (1) permit Contractor to repair or replace the System so that the same meets the Acceptance Test specifications in all material respects, all at no additional expense to City, or (2) return the System to Contractor, at Contractor's expense and without liability to City, and any amounts paid by City for the System shall be promptly refunded by Contractor to City. All warranties shall become effective and begin to run upon the successful completion of the Acceptance Tests and the date of Final System Acceptance.

Payment for any part or parts of the System or Services provided hereunder, or inspection or testing thereof by City, shall not constitute acceptance or relieve Contractor of its obligations under this Agreement. City may inspect the components of the System when delivered and reject upon notification to Contractor any and all of the System which does not conform to the Specifications or other requirements of this Agreement. Components of the System which are rejected shall be promptly corrected, repaired, or replaced by Contractor in accordance with Contractor's warranty obligations under this Agreement, such that the System conforms to the warranties, Specifications and the other requirements of this Agreement. If City receives components of the System with defects or nonconformities not reasonably apparent on inspection, then City reserves the right to require prompt correction, repair, or replacement by Contractor in accordance with Contractor's warranty obligations under this Agreement following the discovery of such defect or nonconformity.

12.6 Warranty Claims

Before the expiration of the warranty period, City must notify Contractor in writing if Equipment or Contractor Software does not conform to these warranties. Upon receipt of such notice, Contractor will investigate the warranty claim. If this investigation confirms a valid warranty claim in accordance with Section 13, Contractor will (at its option and at no additional charge to City) repair the defective Equipment or Contractor Software or replace it with the same or equivalent product. Such action will be the full extent of Contractor's liability hereunder. Repaired or replaced product is warranted for one year warranty period of the unit to which they are attached.
